

## Make a Sound Machine

### Maker Connect

Close your eyes and listen. Sounds are all around us! Can you identify some sounds? Where are they coming from?

Sounds can come from nature, animals, objects and machines. Sounds can make rhythms and sounds can make music. Sounds can wake you up, warn you of danger or entertain you. Sometimes sounds are just noise.

Look at the photos, and think about these questions.

- What do you see?
- What questions do you have?
- What ideas do you have?
- What can you make?
- Can you make your own sound machine?
